

You've Got a Message. PSAV Makes It Last.

Running a successful event requires more than just AV. It takes a full array of event technology that starts before the show. Impacts your audience during the show. And helps your message last long after the show. When that happens, you look like a hero. No one is more experienced with this than PSAV.

➤ **We're your single point of contact**

We know that event planners prefer a single contact for all their event technology needs. Using multiple off-site vendors makes your job overly complex. And, it increases the chances of something being overlooked for your show. With PSAV, there's someone on-site at the property every day, acting as your single point of contact.

➤ **PSAV seamlessly integrates with the hotel**

PSAV works with you as part of the hotel team. We know screen sizes, sightlines, and lighting levels to make sure everything works smoothly. PSAV knows the small things that make a big difference for each location. And because PSAV is a seamless part of the hotel team, you have the advantage of a single master bill from the hotel. Whatever you need, whenever you want it, we'll be there to support you throughout the event because everything is just down the hall.

➤ **Valuable tools to help plan your meeting**

Want to see how your meeting space can come alive? Our entire array of event technology services makes your events new, fresh and different. Every time. With PSAV, whether your meeting is large or small, you always get a show business experience.

➤ **Experience across North America**

With over 800 locations worldwide and 32 regional equipment warehouses, PSAV is able to provide support across North America. PSAV gives unparalleled access to more equipment and the best technical resources in the industry.
